May 16, 2005

2. I am fully familiar with the application, the Office Action mailed on December 15, 2004 and the cited prior art to Driver et al. (No. 6,708,728), Keist Jr. (No. 5,816,213) and Shishkin et al. (No. 4,758,115).

3. I submit this Declaration to establish a date of invention of the application claimed herein prior to July 17, 2001.

4. Annexed hereto is a memorandum I prepared on July 23, 2001 setting forth various improvements to the cured in place installation process as described in the application. As noted under "ACTION ITEMS" is an entry to "Rework turning machines so it can be mounted on easement machine and be used for Air/Steam installation of AIM." This refers to the pressure bladder and eversion assembly and easement unit as claimed in this application. The report notes that this was to be completed by August 1, 2002 and in fact is noted as "COMPLETED".

5. I conceive of utilizing the pressure bladder canister and eversion apparatus and easement unit as claimed in this application and completed by July 23, 2001 in prior to July 17, 2001.

6. Following conception of the invention, I communicated a description of the invention to Michael I. Wolfson, the patent attorney in charge of this application in order to prepare a new patent application directed to the eversion apparatus and easement unit. This took place prior to July 17, 2001. In view of the filing of the application on August 10, 2001, it is respectfully submitted that I was diligent in filing the application.

7. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further
